

SUSTAINABLE PURCHASING POLICY

In line with the sustainable supply approach, we attach great importance to the fact that our suppliers/solution partners meet certain criteria and wish are this perspective with ours take holder suppliers. The secriteria are as follows ;

- Have accepted environmental and sustainability labels/certificates,
- No harmful effects on the environment in production and supply, and compliance with environmental regulation
- Resources are used/consumed appropriately with out harming natural life and ecosystems. Hunting laws are respected.
- Work to minimize and properly manage its waste. Useless packaging in product packaging or offer alternatives to bulk packaging.
- Offer alternatives that are environmentally friendly, economical, local, ethical, recyclable or use recycled materials, organic, bio, vegan, not tested on animals, free of harmful chemical compounds, etc.
- Local and domestic production/service providers.
- Have products/services that reflect/present our country's/region's cuisine, traditions and culture.

We work hard to create efficient purchasing opportunities with our suppliers. We also strive to reduce the environmental impact of our procurement processes.
